EVERY PLANT IN MAHONING VALLEY IS CLOSED DOWN

Meeting of Strike Committee Bearing on Ohio Plants.

SOME EMPLOYEES WANT TO RETURN TO WORK QUICKLY

Strike of Unskilled Men Prevents Others From Fulfilling Agreement

The third day of the nation wide steel strike found Ohio's three great steel centers at Youngstown, Cleveland and Steubenville completely paralyzed.

Cleveland reported the first rioting of the strike there. Four men were stabbed, two probably fatally, and two others were badly beaten at the entrance of the American Steel and Wire company's plant at Newburg when the men attempted to enter the mills to go to work.

Strike sympathizers sought to stop the workers from entering the plant, and two of the men negroes, are reported to have been killed in a gun battle which ensued, in which a street car with workers was stoned.

No trouble of any kind was reported in the Youngstown or Steubenville districts. Children were reported about the entrances to the big mills at Youngstown, where picketing was said to have been dispensed with for most part.

The Youngstown Sheet and Tube company at Youngstown and the "Tomb" Steel company at Warren were the last two big steel plants in the Mahoning valley to close up shop. Both announced they had closed late yesterday. Together they employ about 20,000.

Union leaders claim that more than 50,000 steel workers are out of work in Ohio because of the strike.

Cambridge reported strikers there are slowly returning to the places they vacated Monday morning and that five of the ten mills of the Quernsey plant of the American Sheet and Plate company are in operation. Only three mills were operating Monday.

An air patrol of the Youngstown strike district was inaugurated today by the Youngstown police. Photographs will be made of strike activities about the big Youngstown plants by aviators and turned over to the police department.

The Weirton Steel company's big mill at Weirton, W. V., across from Steubenville is working 100 per cent, company officials stated. There has been no trouble there but 500 deputies have been sworn in.

Youngstown, Sept. 24.—With every steel plant in the Mahoning valley closed down and extreme quiet prevailing throughout the district, the meeting of the national strike committee in Pittsburgh.

Besides considering plans for financing the strike and the committee is expected to take action on matters of vital interest to local concerns, particularly to

MEN IDE; MEAT SALES IN YOUNGSTOWN DROP

Youngstown, Sept. 24.—The steel having a telling effect on living conditions according to local wholesale and retail meat dealers the sale of meat has fallen off in a marked degree. The slump in the trade is attributed to reticentness of the strikers and men made idle on account of the steel mills closing.

the relation between the American Federation of Labor, union of unskilled men, and the Amalgamated Association of Iron, Steel and Tin Workers.

The Trumbull Steel company at Warren, A. M. Byrne, general manager, Brier Hill Steel company in its sheet departments at Niles, Republic Iron and Steel company in its DeForest plant and the Sharon Steel Hoop company all have agreements with the Amalgamated association and the hundreds of these union men all are anxious to return to work. They can not work, however, so long as the unskilled men are out.

Another fabricating plant, the Youngstown Pressed Steel company was added to the list of closed plants this morning when after meetings last (Continued on Page 2, Col. 3)

D'ANNUNZIO SEIZES 4 ITALIAN WARSHIPS

Pola, Manday, Sept. 22.—Four Italian warships, the destroyers Afrabello, Nullo and Abba are named as units of the "Fiuman navy" in a proclamation written by Captain Gabriele D'Annunzio and distributed in this city. The proclamation praises the men of these ships for "their loyalty to the Fiuman cause" and exhorts them for their "various acts." It is stated here that because the desertions of these four vessels from the regular Italian navy that allied commanders were forced to withdraw from the harbor of Fiume which was considered unsafe while the Dante Alighieri was anchored there and was loyal to the D'Annunzio cause.

PRESIDENT SPEAKS TODAY AT CHEYENNE

Cheyenne, Wyo., Sept. 24.—Cheyenne prepared today to welcome President Wilson who will arrive at 4 o'clock this afternoon.

The president's train entered the state shortly after 1 o'clock this morning. Upon his arrival the president escorted by the famous "black horse" troop of the 15th cavalry now stationed at Fort D. A. Russell, will go immediately to the theatre and deliver an address. He will leave Cheyenne at 7 o'clock for Denver.

This remarkable photo was taken while the recent gulf hurricane was hurling mountains of

water at Galveston and threatening to wipe the city off the map. The only thing that prevented a

CHARGES WIFE BROKE HIS ARM

Husband Alleges She Struck Him With Milk Bottle—Says She Threw Chair at Him.

Charging that his wife hit him over the arm with a milk bottle fracturing his left arm in two places, Byron Shaw has filed an action for divorce in probate court from Francis Shaw.

The wife married Jan. 31, 1918, and Shaw alleges gross neglect in that his wife refused to cook his meals for him and also that she left home for long periods of time. He states that she called vile and indecent names and referred to him as "an old gray headed fool."

Shaw further alleges that on Sept. 6, his wife took his pocketbook away from him and when he remonstrated that she attempted to strike him with a water pitcher and that while he was going down the stairs she threw a chair at him and afterwards followed him, and threw a quart of milk in his face, then struck him over the left fore arm with a milk bottle and broke his arm in two places.

Although Shaw claims he was incensed by reason of his broken arm defendant would render him no assistance and that while in the office of a physician on Sept. 16, Mrs. Shaw went to the home, took the household goods and furniture as well as the canned fruits and provisions. Shaw asks the court to grant him a divorce and all relief to which he may be entitled.

CONGRESS SEES CHANGE COMING

Leaders Believe Strike Is First Skirmish Between Capital and Labor For "Show-Down".

Washington, Sept. 21.—Congress is inclined to view the steel strike as "the first skirmish in industry war," possibly only the prelude to the long talked of "show down" between capital and labor which many have predicted would come in the readjustment from war to peace.

The open statement by some of the strike leaders that the strike is the start of a movement to socialize the basic industries of the country, coupled with the fact that the railway workers already have proposed, in the so called Plumb plan, to socialize the transportation highways is regarded in congress as very significant.

The pending resolution by Senator Kanyon, Republican, Iowa, to have the senate labor committee investigate the causes of the strike, hearing both Chairman Gary of the Steel Corporation on behalf of capital, and John J. Fitzpatrick, chairman of the organization committee of the steel workers, in behalf of labor, is planned to open up the whole situation if possible, "in the light of the great third party—the public," as the senator from Iowa himself explains it.

Fitzpatrick will be heard by the committee tomorrow and Judge Gary will be heard Wednesday, October 1.

RIFLE MATCH BY MAIL

Springfield, Sept. 24.—Shooting matches by mail will be inaugurated by the Reed Rifle club of this city next week when a ten men team will enter competition against a ten man team of Covington, Va. rifle club. It was announced here today. Each club will shoot on its own range, and exchange the score by mail.

New York: New York American League club files brief in suit against Ben Johnson.

AIRPLANE USED TO PATROL YOUNGSTOWN STEEL AREA

Youngstown, Sept. 24.—An aerial patrol of the Youngstown strike district was established by the Youngstown town police department. The Youngstown Aviation club proffered the use of a machine which has been accepted Captain Deeds of the Royal Flying squadron corps, will pilot the machine. Aerial photographs will be taken of activities about the big plants and turned over to the police department.

OKLAHOMA MAYOR BLAMES BOLSHEVISTS

Drumright, Okla., Sept. 24.—With state troops walking post in the streets of this city and others standing guard in most buildings, the riot situation that arose out of the strike of 18 telephone operators has lessened in intensity. The troops arrived in Drumright last night and were sent out to guard the city before daybreak this morning.

Eleven alleged leaders of the rioting oil field workers are in jail today, among them Ed Welch, business agent for that union. Other arrests are expected today.

Mayor Ben Nicodemus made a state ment last night in which he declared that the Bolshevik and I. W. W. element among the oil field workers and not his stand on the telephone strike was responsible for the rioting of Monday night.

OKLAHOMA TROOPS ARE READY TO QUELL RIOT

Oklahoma City, Okla., Sept. 24.—Adjutant General Barrett, of Oklahoma was prepared today to rush additional troops to Drumright, a small oil town in Creek county, where rioting has been in progress intermittently since Monday night in connection with a strike of girl telephone operators.

Owing to impaired wire connection the exact situation in Drumright was uncertain today but late night reports that the city had become crowded with armed men at new oil fields and the national guardsmen at Cushing, three miles away prompted officials to consider taking further steps to cope with any emergency.

Last reports from the town said that while there had not been a general resumption of rioting individual fights were in progress on all sides.

WILL USE BALLOON TO SEND SIGNAL TO MARS

Omaha, Sept. 24.—Leo Stevens, balloon instructor at Ft. Omaha, announced yesterday that Professor David Todd will attempt to communicate with the planet Mars this fall in a balloon to be constructed and piloted by Stevens. The balloon, to be the largest ever made, will ascend 50,000 feet, Stevens said. Its capacity will be 140,000.

The balloon will be enabled to rise to the expected height, Stevens said, by use of an invention which divides the balloon in two compartments, the upper containing hydrogen gas and the lower fresh air.

Professor Todd, just returned to Amherst college from Brazil, has perfected a signaling apparatus for the experiments, Mr. Stevens said.

EDITOR BOK RESIGNS

Philadelphia, Sept. 23.—The resignation of Edward Bok as editor of the "Ladies' Home Journal," effective January 1 next, was announced yesterday. H. O. Davis of Los Angeles, Cal., who has been managing editor of the magazine for the last six months, will succeed him. Mr. Bok has been editor of the publication for 30 years and in his letter of resignation said he wished to mark the thirtieth year by a withdrawal from active editorial work.

NEED BIG FORCE TO EXPELL HUNS

Allies Handicapped In Effort to Enforce Order to Quit Baltic Russia.

Paris, Tuesday, Sept. 23.—The attempt by the Bolsheviks to negotiate peace with Estonia and Latvia and in indications that the Poles and the forces of General Denikin, the anti-Bolshevik leader in South Russia, soon may establish communication and coordinate their efforts in fighting the Bolsheviks in the Ukraine have revived interest in the Russian situation among the peace conference delegates.

The refusal of the German general, Von Der Goltz, to obey the orders of the peace conference that he evacuate the Baltic provinces of Russia, and Germany's declaration that she cannot be responsible for his movements, leaves the conference for the moment in a helpless position, as there is disposition to ask the Poles, who already are engaged to expel Von Der Goltz and no other nation has forces available.

The Poles already are so busy with the Bolsheviks and so unsettled at home that the great powers apparently are unwilling to impose more military burdens on them.

American officers recently returned from Latvia express the belief that Von Der Goltz soon will return from that part of Russia.

Reports from Kolchak by the Russian committee in Paris gives hope that the anti-Bolshevik leader in the Omsk region has greatly improved his position.

The Russian committee in the Omsk region has a formidable question to deal with that his armies are again well organized and moving westward against the Bolsheviks. Reports received from the Denikin forces also are favorable.

SA VOTE SHOWS SENATE LINEUP ON TREATY FIGHT

Republicans Win In First Test Vote When Motion to Defer Action is Carried

Washington, Sept. 24.—Exactly how far the three vote victory of the Republicans in the peace treaty fight in the senate yesterday can be construed as a real index of the feeling of the senate toward the peace treaty and the covenant was a debatable question today among senators. Opponents of the league accept the vote as a true line up of the senators for final action, while the Democrats make light of the result and declare it means nothing.

The vote which stood 43 to 40, was taken on a motion by Chairman Lodge of the foreign relation committee to postpone for one week consideration of forty or more amendments which would relieve the United States from service on commissions under the treaty.

Although Senator Lodge's motion was to defer consideration of the amendments, offered by Senator Fall, Republican of New Mexico, until "next Tuesday" he later explained that he had chosen the date at random and it was changed to Friday.

The amendment of Senator Johnson, Republican of California, designed to equalize the voting power in the league of the United States and Great Britain is now expected now to be taken up until the senate finally has disposed of the Fall amendments.

QUIET WEDDING IS HARDLY RIGHT TIME FOR THIS ONE

Davton, Sept. 24.—John Zickets 21, didn't get to act as best man at the wedding of a friend today.

He vented his wrath by hitting the pastor Rev. M. Cubleski on the nose. Women of the congregation then mobbed Zickets. After he had been rescued by a police squad, he was arraigned in police court on a charge of assault and battery. The wedding was a success in other respects.

LABOR OPPOSES BILL TO PREVENT STRIKES

Washington, Sept. 24.—Anti-strike provisions of the Cummins railroad reorganization bill are opposed vigorously by organized labor, testimony of three of the foremost labor leaders, has brought out before the senate interstate commerce committee.

Samuel Gompers, President of the American Federation of Labor, Warren S. Stone, chief of the Engineers' brotherhood, and Glenn E. Plumb, general counsel for railroad brotherhoods and author of the Plumb railroad plan, all vigorously opposed the provisions and said up they could prevent men from quitting work at then will.

Representatives Mondell, Republican leader Wyoming, has announced in the house that some legislation for railroad organization would be reported out in the house at this session.

BOLSHEVISTS CLAIM CAPTURE OF VILLAGE

London, Sept. 24.—A Bolshevik wire less message received today from Moscow says that Red troops commanded by General Lukibok are reported to have captured Tomsk, 500 miles east of Omsk, the all Russian seat of government on the trans-Siberian railway line.

The foregoing receipts, if confirmed, would seem to indicate an insurgent rising behind General Kolchak's lines which had resulted in the seizure of an independent strategic point on the trans-Siberian line in central western Siberia. While Tomsk is not on the main railway line it is at the terminus of a short branch line extending northward from Tuga and is the principle strategic and economic center of a vast region.

HARDING WANTS WORLD PEACE; OPPOSES LEAGUE

Columbus, Sept. 24.—United States Senator Harding has sent replies to two groups of Columbus Republicans, one of which had urged him to support the league of nations covenant and the other urging him to vote against it.

To those favoring the league he said: "I venture no dispute about desirability of international co-operation for the promotion and preservation of peace. However, it is impossible for me to agree that the United States of America must surrender its independence of action in order to contribute the full part of the American people to an end so much desired."

To the other group, urging him to vote against the league covenant, Harding said:

"My objection to the league covenant in the form negotiated is based on the belief that it establishes a super-government in which this great republic is asked to submerge its nationality. I choose to support such a policy as will make it possible for our people to remain proudly American and still contribute of our might and our conscience toward peace and stable democracy throughout the world."

SENATE TO PROBE I. W. W. CHARGE AGAINST LEADER OF STEEL WORKERS

Ohio Congressman Declares Foster Was Responsible For Much of Radical Propaganda—Will Be Called Before Senate Labor Committee at Next Week's Sessions.

Indiana Harbor, Ind., Sept. 24.—Officials of the Inland Steel company sent an ultimatum to their striking employees today that unless they returned to work within two days the company will shut down the plant for six months.

SAYS FOSTER IS I. W. W. LEADER

Washington, Sept. 24.—Charges made in the house by Representatives Cooper, Republican, Ohio, that William Z. Foster, secretary-treasurer of the steel strikers organization committee represents radical union leadership and has been active in I. W. W. propaganda will be investigated by the senate labor committee during its inquiry into the steel strike.

Chairman Kenyon said today that Foster would be summoned before the committee after John J. Fitzpatrick chairman of the strikers committee had been heard. Fitzpatrick stated today that he would be on hand tomorrow at the opening of the inquiry. H. S. Rubin, counsel for the strikers also may be heard.

No charge has been made in the committee's plan to hear Chairman Gary of the United States Steel corporation next Wednesday.

Reports from all steel centers today recorded little change in the alignment of the opposing forces of the labor union and the steel companies in the Mahoning valley or Ohio the strikers' success is complete. The industry, which is the backbone of Youngstown and a score of neighboring villages is paralyzed and all its 44,000 wage earners idle.

Elsewhere the struggle is being carried on with varying success, the issue still being doubtful in the great strategic sectors radiating from Pittsburgh and Chicago.

In the Pittsburgh district the Carnegie Steel company stated today that the situation "looks good" and backed up its optimism with claims that the men were returning to work in considerable numbers.

A usual these claims were stoutly denied by William Z. Foster, chief of staff for the unions, who reiterated his assertion of yesterday that the strike was spreading, claimed two additional meetings had been called today and that Homestead would be idle by the end of the week.

The strikers placed pickets around various plants for the first time. The situation around Homestead was definitely that in the Pennsylvania region. A majority of the mills are closed and those which are still operating are doing so with reduced forces. The threatened sympathetic strike of the Lake seamen seemed nearer as the result of the refusal of the crews of all freighters to dock their vessels.

Important decisions affecting the spread of the strike to allied industries are expected to be made today at the meeting today in Pittsburgh of the national steel workers committee of which Mr. Foster is secretary. The question of summoning not only the lake seamen but union trainmen to the meeting today when John Fitzpatrick, commander in chief of the strikers will be the principal witness. It was reported from Washington today that this committee will also investigate charges that Secretary Foster has I. W. W. affiliations and that there are more sinister motives involved in the strike than the question of labor unions. Rioting and disorder still mark the progress of the struggle but so far only sporadically. The latest outbreak occurred today at Cleveland where four men were stabbed in a battle between strikers and non-strikers, two probably fatally. At Farrell, where the gravest disturbance to date have been reported, the town executive Burges Moody, is under special guard as the result of numerous threats against his life and the streets are patrolled by large forces of state troopers and deputy sheriffs.

In the meantime the United States senate committee which will investigate the strike is preparing for its first meeting tomorrow when John Fitzpatrick, commander in chief of the strikers will be the principal witness. PITTSBURGH OPERATORS STILL ARE OPTIMISTIC

Pittsburgh, Sept. 24.—All the large corporations in the Pittsburgh district affected by the steel workers' walkout continued to give out optimistic reports today to the general effect that the strike situation from their point of view is improving. Without exception the corporations canvassed announced that more men returned to work today than yesterday. In some instances, it was stated the number was small but satisfaction was expressed by company representatives with the situation as it was progressing.

On the other hand statements from national union headquarters here were to the effect that the strike continued to spread. Secretary William Z. Foster of the steel workers' national committee predicted that the great Homestead plant of the Carnegie steel company, the principal subsidiary of the United States Steel Corporation, would be shut down by Saturday. It is known that both sides are concentrating much energy on these works. Strike leaders say to close down Homestead and keep it shut would go a long way to bring victory to the steel workers. The streets of Homestead and Marshall are

Union leaders announced that their attention would be directed today toward the Carnegie Steel Company and the Ferguson Steel and Iron Company, which heretofore have been unaffected by the strike.

FEAR RACE RIOTS AS NEGRO GUARDS ARRIVE

Farrell, Pa., Sept. 24.—Although all was quiet here today, following last night's outbreak in which one man was killed and several persons were wounded, the situation was tense.

State police and a large number of deputy sheriffs were patrolling the streets within the riot zone. Thirty more of the constabulary arrived last night to aid the detachment of state troopers already stationed here. Among the armed deputy sheriffs put on the streets were about 30 negroes. The presence has aroused the feeling of the foreign element and race rioting are now feared.

Two men were arrested early today at the home of Burgess J. H. Moody, in Shannango street. One of the men had a pistol, the police said. The police believe they were planning to make an attempt on Mr. Moody's life.

GIRL WEEPS AS SHE TESTIFIES AGAINST FATHER

Tells Court Her Clothes Were Torn From Body As She Sought to Protect Her Mother.

Probate Judge Robbins Hunter is still engaged in hearing evidence today in the divorce and alimony case of Clemie J. Lones against Dora J. Lones and which was brought to his court from Perry county on a change of venue.

Yesterday a number of witnesses were examined for Mrs. Lones, including two daughters, the latter testifying to the mistreatment of their mother by their father and a number of neighbors testifying that Mrs. Lones had a black eye for several weeks. One of the daughters testified that in an attempt to protect her mother she had her clothes torn from her body. The young woman was in tears as she gave her testimony to the court.

Mrs. Lones testified that she examined her husband's trunk one day and found that he had \$1,000 on deposit in a Newark bank, \$1,015 in a New Lexington bank, \$2,450 in a Somerset bank, \$1,000 in a Russellville bank, \$1,000 in the Thornville bank and a check for \$200. Also that he had promissory notes for \$3,500, \$2,000, \$360 and \$345, and that he had in the trunk government bonds amounting to \$1,900 and stock certificates in the Star Mfg. Co. of New Lexington amounting to \$750. She also stated that her husband owned 250 acres of land in Perry county.

The defense is introducing its evidence today and up to 10 o'clock.

Business had been examined. It is hardly probable that the case will be finished before tomorrow, after which Judge Hunter will take it under advisement.

EVERY PLANT

night and this morning the men decided to strike because of a condition arising in connection with the Sharon Steel Company. The company plant is closed. The fabrication plant uses two boilers of the Sharon company. When one of the latter company went out Monday the fabricating plant put its own men to firing the boilers. This was claimed to be in violation of union rules. The Youngstown Pressed Steel Company employs about 500 men.

Though approximately 10,000 were paid today by the Youngstown Sheet and Tube company no sign of disturbance was in evidence about the plant stations. Men receiving their money generally went home. There was no loitering about the plant.

Pickers have been practically withdrawn from the plant as no attempt is being made to operate.

STEEL MILL ACCEPTS UNION DEMANDS

Martins Ferry, Sept. 24.—Signs of the first break in the ranks of steel mill operators in this district came yesterday, when notices were posted informing striking employees of the Wheeling Steel and Iron company that its plant would resume operations within a few days under union agreement.

The company's tin plate plant at Yorkville, near here, is working under an Amalgamated Association of Iron, Steel and Tin Workers agreement, but its other furnaces and mills here and at Wheeling, W. Va., employing 3,000 men, are idle.

FOUR STABBED IN RIOT AT CLEVELAND PLANT

Cleveland, Sept. 24.—Four men were stabbed, two probably fatally, and two others were badly beaten at the entrance of the American Steel and Wire company plant this morning in the first serious local disorder of the steel strike. The trouble broke out when a street car stopped near the plant to let off men bound for work at the mills.

Among those who got off the car were three negroes. Strike sympathizers sought to stop them from going into the plant, according to the police, and two of the negroes drew knives. A general fight ensued, in which many men in the vicinity of the plant joined. When a detail of police reached the scene they found four men had been stabbed, two probably fatally.

The negroes returned to the street car for shelter. The car was pursued by hundreds of strike sympathizers and bombarded with bricks and stones and the three men seized and beaten. Police rescued two of them and the third escaped.

Police Captain Lawrence in charge of the Newburg district said he looked for further trouble this afternoon when the American Steel and Wire company plans to pay off the workers. All of the severely injured were removed to hospitals. Nine arrests were made as a result of the rioting, including two injured men.

Two other disturbances had broken out in the Newburg district this morning in which a man was slightly hurt. Patrolman Hack was beaten and one man was believed to have been shot in a steel strike disturbance near the Otis Steel company plant shortly before noon. Hack was attacked when he ordered the men to move on. He fired three shots and believes a man was shot and carried away by friends.

LOYAL EMPLOYEES ARE SERVING AS DEPUTIES

Steubenville, Sept. 24.—The steel strike situation here today was unchanged with the Labadie Iron Works and Steubenville plant of the Weirton Steel company closed. The Mingo Junction plant of the Carnegie Steel company is also idle. The Weirton, W. Va., plant of the Weirton Steel company is operating 100 percent, according to claims of the mill officials. Mounted police are patrolling the streets which is mill property in Weirton. They look for further trouble here today, but with 500 deputies sworn in the company is ready for any number today, but with 500 deputies are workmen in the mills who look their stand with the company yesterday when rumor reported at Weirton that a parade was being planned in which strikers from Steubenville and sympathizers would march to Weirton to conduct a mass meeting.

COMPANY THREATENS

(Continued From Page 1)
guarded very heavily to protect men who want to go to work, than probably any other community in the Pittsburgh district.

Union leaders say reports from Homestead showed fewer men at work today than on Monday or Tuesday.

Much interest was manifested in the meeting of the national committee of steel workers conducting the strike. Twenty four unions involved in the conflict sent representatives to the meeting. No peace plans are in sight. It was said by Secretary Foster, variety of matters affecting the conduct of the strike, including fuel questions, were of some before the meeting which began in the forenoon.

The entire Pittsburgh district was comparatively quiet up to noon today. "We are very much encouraged," was the word that came from the Carnegie Steel Company offices a few hours after the day shift went to work in the plants of the company which are in operation. At Clairton it was given out that more departments were to be placed in operation today because of the reporting of additional men. The company had no reports from the general superintendent at Homestead, but information came to the offices from the main gate, where the men check in, that more workers passed in on the day shift than yesterday.

At Braddock it was said more foreign born workers reported today. Duquesne, which all along has been reported as working 100 per cent by the company, was said to be still operating on the same basis.

The city mills of the Carnegie Company, it was given out, "look good." William Z. Foster, secretary of the West Pennsylvania Steel Company, up the Allegheny valley, an independent concern, over 90 per cent of the more than 700 American born employees there were at work today, while but six foreign born out of approximately 450 were on duty.

One furnace in the open hearth department of the Allegheny Steel Company, in the Allegheny valley, was reported to have started today. Practically all the carpenters employed in the mill also reported, it was said. The plate mill was also in operation.

William Z. Foster, secretary of the steel workers' national committee, did not agree with the reports given out by the Carnegie people. He reiterated that the strike "was spreading." He stated that the Homestead plant would be closed down with the end of the week. Mr. Foster, commenting on the claims of the Carnegie interests, said that in the Chicago district the company is giving out information that they have only a 20 per cent shutdown there, while the union leaders there "know positively that there is a 98 per cent shutdown."

The closed two large independent plants in Pittsburgh are the A. J. Byers Company and the Oliver & Snyder Steel Company.

Mr. Foster said he was highly pleased with the strike progress in the district. At Duquesne and Clairton, he said, men were continually walking out. He declared that the local steel plants were practically all shut down with the exception of the Jones and Laughlin works on the South Side.

The advance guard of a large number of organizers sent into the district by the United Mine Workers' Union began to arrive today. They are being assigned to Homestead, Braddock and other large steel towns.

BOTH SIDES CLAIM GAINS IN CHICAGO

Chicago, Sept. 24.—While leaders of the striking steel workers in the Chicago district, and heads of steel mills each claimed gains, there appeared little change today in the number of plants in operation. A majority of the mills were still closed and practically every man in operation worked with a reduced force.

Reports were in circulation today of the importation of strike breakers into the Chicago district, and that some of the mills idle since Monday contemplated resuming operations by pooling workmen who had remained loyal.

The only disorder in this district since the inception of the strike occurred at Indian Harbor, Ind., last night, when strike sympathizers outside the coke plant of the Mark Manufacturing Company attacked about 25 men as they left work.

Eight or nine men were badly beaten and were taken to an emergency hospital after Indian Harbor, police stopped the fighting. A number of shots were fired at the police but none was hit. A negro striker who carried a knife was arrested.

The men who were attacked has remained to pull fires and to prepare the plant for an extended shutdown, it was stated.

Eleven steamers, carrying 100,000 tons of iron ore, today were tied up in the outer harbor at South Chicago by the refusal of crews to dock the vessels. Chicago officials of the Seamen's Union said that their men had voted to strike in sympathy with the steel men.

Regarded by the employers as the most important defection from the strikers ranks was the reported intention of 40 men of the American Iron and Tin Plate Company at Gary, Ind., to return to work. According to the company reports, each of these men would bring back his crew of 20 men. Federal officers at Gary arrested Michael Yelovitch, charged with making seditious utterances. The officers asserted Yelovitch distributed pamphlets urging the turning of the strike into a revolution.

FOUR BIG RACES ON GRAND CIRCUIT CARD

Columbus, Sept. 24.—Owing to the vagaries of the weather on Monday which broke up the programs of both Monday and Tuesday to a large extent, four big stakes constitute today's grand circuit program which will be the richest offered during the two weeks' meeting.

It consists of the Chamber of Commerce 2:15 race, purse \$3,000; the Board of Trade 2:55 race, purse \$3,000; the Buckeye 2:12 trot, purse \$3,000; and the Western Horsemen's futurity for three-year-old trotters, purse \$6,500. This program totals \$15,500 and most of the racing and trotting stars of the year will start. In addition the unfinished 2:17 race will be completed.

FIX MINIMUM SALARY

Springfield, Sept. 24.—By action of the Dayton Presbytery which has just closed a two-days session at Clifton near here, a minimum salary of \$1200 will be paid all pastors of the presbytery in addition to being granted free rent of parsonages.

FARMER MAY DIE; STRUCK BY TRAIN

Hanover Township Farmer Suffers Many Injuries When Corn Cutter Is Caught on Pennsy Crossing.

V. K. Herendeen, a farmer living east of Hanover was probably fatally injured when he was struck by a Pennsylvania train at the crossing near his home this afternoon.

Mr. Herendeen, was on a corn cutter enroute to the home of his daughter Mrs. Florence Stitts at Black Run. At the Freese crossing he waited for the local and then crossed the tracks, and did not see a train coming from the other direction.

When the train struck the corn cutter, one of the horses killed and Herendeen had both legs broken, his left foot nearly amputated, his right shoulder dislocated and right arm broken. A deep gash was cut across the chin, and his back was injured.

He was placed on the train and brought to Newark. The Bradley ambulance meeting the train at the Cedar street crossing. Drs. H. J. Davis, H. H. Postle and W. B. Nyman attended.

It is not determined whether he suffered internal injuries but his condition is considered to be very serious.

PLAN ITINERARY FOR BELGIAN ROYAL FAMILY

Washington, Sept. 24.—King Albert, Queen Elizabeth and Crown Prince Leopold of Belgium will be welcomed informally, when the transport George Washington on which they are enroute to the United States reaches New York. The formal welcome will be given the royal party on the arrival in Washington. Immediately upon landing at New York the distinguished guests will go aboard a special train for Washington, where they will be met by the President and Mrs. Wilson.

Governors of a number of states and mayors of a large number of principal cities are being communicated with as regards the tour of the country, planned by the Belgian rulers. Arrangements for the tour, it was said today, have been almost completed and the itinerary which extend to the Pacific coast will be announced soon.

GERMANS SEEK CREDIT TO BUY IN ARGENTINA

Buenos Aires, Tuesday, Sept. 23.—Formal negotiations were opened this afternoon by Germany for a loan of \$100,000,000 from Argentina to facilitate the purchase of raw materials in this country.

Foreign Minister Pueyrredon, on whom the German delegation called today to discuss the matter would be referred to President Irigoyen. It was stated by the delegation that such security as Argentina desired would be provided.

Proposals were also made by the Germans looking to the formation of a local syndicate by the principal German concerns in Argentina which syndicate would purchase materials and expedite shipments to Germany. Its capital would be \$10,000,000, it was stated. If the loan is granted, it is planned to purchase immediately 350,000 tons of wheat, 500,000 tons of maize, 20,000 tons of flax and 100,000 tons of meats and fats.

ENGLISH RAIL WORKERS THREATEN TO STRIKE

London, Sept. 24.—Because of the situation created by the presentation to the government today of an ultimatum by the railway men in which a strike was threatened, a full meeting of the cabinet was called to be held this afternoon to consider the situation.

The executive body of the railroad men, it was declared by J. T. Thomas, the general secretary of the National Union of Railway men, has unanimously decided to declare a strike at noon Friday unless a settlement from the government is received in the meantime.

This afternoon Minister Geddes replied to the ultimatum declaring that the action of the men's executive was unjustifiable and that in order to meet their demands freight rates would have to be advanced, probably 50 per cent. He declared that the increased pay demanded would mean an additional permanent expenditure by the railroad companies amounting to \$45,000,000 annually as compared with the pre-war expenditure.

MINE UNION LEADER SHOTS DEPUTY SHERIFF

Charleston, W. Va., Sept. 24.—Don Chafin, deputy sheriff of Logan county, here to make the arrest of a man wanted in that county was shot and seriously wounded today in the offices of District Number 1, United Mine Workers. Vice President Petry of the mine workers organization, was arrested for the shooting.

Chafin, who was shot just over the heart, was taken to a local hospital where it is said his condition is critical. Petry was taken before a justice of the peace where he gave bond in the sum of \$10,000 for his appearance before the grand jury.

A Reminder.

Let us all each day, in every and all of our actions and endeavors, practice truth and altruism, the eternal enemies of hypocrisy and selfishness, for the inevitable result of a violation of these principles are long in these enlightened times will bring us misery and proclaim to us the futility of our methods in an endeavor toward a higher civilization.

His Explanation.

Vincent was afraid of chickens, and one day as he was going to the neighbor's he hesitated before a path where a few chickens were picking away at the elders. After standing there a few moments waiting for them to get away he returned, saying: "There was a waster on the sidewalk and he was afraid of me, so I com'd back."

MISSOURI VET. DIES IN NEWARK

Came to Ohio to Attend G.
A. R. Encampment and
Heal Causes Death—
Formerly Lived in Utica.

R. D. Jones died at the home of his daughter, Mrs. A. C. Simpson, 46 Linden avenue at 5:15 a. m. Wednesday. Mr. Jones had come from his home in Maryland, Md. to attend the G. A. R. reunion in Columbus and the intense heat was too much for his advanced age.

He was born in Wales, June 16, 1834, coming to this country while an infant, settling in Brooklyn, N. Y., where he lived until 1878, when he removed with his family to Utica. Later he moved to Maryland, Md., where he lived for 32 years.

Mr. Jones was twice married, his first wife dying in 1874. Of this union there were born six children, five of whom survive. Sam C. Jones of Denver, Colo., and Mrs. Green of C. A. R. Okla., Mrs. J. Hugh Spivy of Tulsa, Okla., and Fred W. Jones of Seattle, Washington and Mrs. Lucy Simpson in whose home he passed away. His present wife, to whom he was married in 1881 was with him.

Short funeral services will be held at the home, 45 Linden avenue, at 2:30 Thursday afternoon. Rev. Hazlett officiating. The G. A. R. will have charge of the services. The body accompanied by his wife and son, Sam C. Jones and daughter Mrs. Kate Doss will be taken to his home in Maryland, Thursday night, where burial will be made.

Mr. Jones was of a strong religious nature and had been identified with the Methodist church since 1872, when he was converted under the great Moody. He was fearless in his opposition of the liquor traffic and exposed himself on a number of occasions, to attacks of those whose business he denounced. He was a pioneer in the temperance movement in Missouri. He was known to many as "Uncle Dick."

PHONE RATE CASE TO BE APPEALED

City Solicitor Announces
That Petition in Error is
Being Prepared to Take
Case to Supreme Court.

The public utilities commission has refused the application of the city for a rehearing in the case of the city against the Newark Telephone company.

The decision was recently made by the commission in favor of the telephone company. The city is contending that the company cannot charge a rate in excess of that certified in the city ordinance of 1914.

H. C. Ascraft, city solicitor, today stated he was preparing a petition in error to be filed in the Ohio supreme court.

ROTES HEAR TALKS ON NEW MUNY COURT

The objects, purposes and benefits of the new municipal court were explained to members of the Rotary club at the Tuesday noon meeting by Frank A. Bolton and Fletcher Scott, each of whom is a candidate for the office. The support of the club in establishing the double platoon system in the Newark fire department was asked by Ned Roe of the Central station who informed the club that all the present members of the department work 24 hours a day and even then the force is not adequate to man all the apparatus at the various houses.

Rotarian John C. Swartz, who represents the club on the Chamber of Commerce good roads committee told of the preliminary organization of the committee and explained the purpose of the committee and the work that it expected to do.

The membership is looking forward with pleasure to the evening of October 1 at which time the Rotes will be the guests of the Kiwanis club. This meeting is scheduled for 5:45.

NEWARK HORSE WINS RATE AT WAPAKONETA

The Vanwood, trotter owned by Austin Smith of West Newark, captured first money again last week at Wapakoneta, in which he battled against 13 trotters. The race was won against a handicap of rain and mud and a high wind which ended the race in two heats.

The Vanwood has entered ten races this summer and has won first money in four events. One second, one third and one fourth place are other money purses copied during the season. The horse won the 2:20 trot at the Licking Fair. He will start again this week at Bellefontaine.

OHIO FUEL GETS 12 MILLION FOOT WELL

The Ohio Fuel Supply company yesterday drilled in a new gas well in the Brink Haven field which will yield an estimated flow of 12 million cubic feet of gas daily, according to a statement made this morning at the Columbus offices of the company.

The well is located on the Shrimpton farm in Jefferson township. It is not new territory a number of wells, both oil and gas having already been brought in in that locality.

STORY OF STRIKE AT HEATH IS DENIED

The story printed in a Columbus paper of a probable strike of the employees of the Phoenix iron company of Meadville, Pa., employed as sub-contractors, at the Ohio Cities Gas company's plant at Heath, was denied at the plant this morning.

An official of the Rust Engineering company which has the contract for construction, stated there was no trouble at the plant and stated that they knew of no decision of the men contemplating a strike.

The Columbus story stated the men were satisfied with the wages and conditions at the plant but that they would strike in sympathy with the Cabin creek coal mines in West Virginia.

DENIES YOUTH THREATENED HER

Mother Tells Probation Officer That Young Adams Didn't Have Butcher Knife or Pistol.

John Adams, 17, who was in juvenile court yesterday charged with an assault upon his mother, denied that he had threatened her, and Probation Officer John Dwyer went to the home in North Twelfth street last night and secured the statement of Mrs. Adams.

"She said that her son was employed at the Midland shoe factory and that when he came home from work he took the ironing board and started to iron a shirt. Something went wrong and the lad threw the board when the mother remonstrated and said that on account of his conduct he could not use it. An argument resulted and the son became boisterous and neighbors telephoned for the police and he was taken into custody and later turned over to the juvenile court."

Mrs. Adams stated to Officer Dwyer that there was no truth in the story that he had threatened to kill her; that he did not have a butcher knife, neither did he have a revolver. He had a rifle some time ago which was taken possession of by the probation officer and Mrs. Adams said that she could manage the boy and that she did not fear him.

Mrs. Adams is the mother of 11 children, one being born two weeks ago. A daughter married several months ago. The other children are at home. The father died as the result of a blow on the head with a shovel in the hands of a fellow workman last April.

MACK SIGNS THREE STARS FOR GRID TEAM

Impressed by the good showing made by Jackson, Lawson and Crowner in the football game Sunday, C. E. McDaniel went to Zanesville last night and signed up these three men as permanent members of the Mack squad this season. Jackson is a cousin of Paul Jackson of Newark and was the most consistent ground gainer with the Marks Athletics. Mack also announced that Lieutenant Hager, who played with the team before the war started, will be in the lineup Sunday against the Pan Handles of Columbus.

Paul Bowser, local wrestler returned last night from a trip through New York where he has been looking after his racing interests has promised to get into the big game Sunday. Other material is coming, McDaniel announced. The team members are called for practice each night at 6:30 o'clock in the vacant lot at North Park Place and Second street and the players have been given to understand that if they are not on hand promptly they will not be permitted to join the drill.

When
Lafayette shaved
in America

WHEN Lafayette put aside the pomp and ruffles of the French Court, and became a fighter for your liberty and mine, he brought with him his beautifully chased set of razors.

As a soldier, he realized the part they would play in keeping him fit. But after he was wounded at Brandywine, the young general found it was not so easy to shave unaided, for in spite of their sweetness of balance and true French temper, his razors lacked the common sense element of safety. What Lafayette needed was the double-edged, detachable, guarded blade of the

THE PEOPLE WANT TO UNDERSTAND.

The people's wish to understand the reasons which impel the United States to ratify the treaty as a means of terminating the war with Germany, and to enter the League of Nations as a guarantee against further international conflicts, is the most conspicuous feature of the President's tour. The senatorial opponents of the League and the treaty have continued their obstruction not because they have failed to understand, but because they refuse to subordinate personal and political bias in the interest of the country.

In all great issues in the history of the United States, the people have shown a willingness to make their decisions upon the facts and according to their conscientious judgment. In the last analysis, there is little partisanship among the masses. They may at times be moved by sentiment in their choice of candidates—for personally may attract or repel them—but in every matter of policy they have uniformly judged and acted upon what they consider its merits.

The question of ratifying the treaty and of approving the covenant of the League is not in any sense partisan. The President is making that abundantly clear. No Republican need desert this party to favor the League. He may act as an American in this crisis without ceasing to be a Republican. When the truth is impressed on his hearers and readers by the President, the opponents of the League will appear in vain to the partisanship of their fellow Republicans among the people. And it is evident from their desire to understand—to learn the facts—that the people will accept the President's view and give him their support.

DEMOCRATIC ROAD LAWS.

It was the Democratic legislation that brought to fulfillment the national demand for good roads. The success of that legislation in realizing the wishes of the country is exemplified by statistics covering the period from 1912, the beginning of President Wilson's first term, to September 1, 1919. In the six years there were constructed more than 15,000 miles of almost perfect high ways.

But for the assistance given by the Federal government, the several states would have been unable or unwilling to bear the whole cost of these improvements. But for Democratic laws no Federal aid would have been forthcoming. The government is now matching with funds from the Federal Treasury every dollar that any of the States devotes to the building of its roads. In addition to the millions that have been voted for this purpose by Democratic congresses, it is proposed to appropriate at \$400,000,000 to continue the work after 1921. Senator Sheppard, a Democrat is the author of this proposal.

The whole trend and tenor of Republican legislation in the past has been in favor of special private interests which wanted immunities and subsidies and privileges at the expense of the masses. There is no better illustration of the spirit and purpose of Democratic law-making than that manifested in this roads legislation, which brought benefits to every section and class of the country.

GRAPE HANGERS.

About a year ago now, a lot of people were saying that Germany never could be beaten. They picked up the paper with a sigh, and after reading the headlines dropped it with a groan. They were sure that everything was going wrong, and that Germany was an invincible force that no other power could touch.

The same element of people have become very disheartened about present social and business conditions. They feel that labor is unreasonable and arbitrary or that capital is selfish and tyrannical, and that the United States is on the verge of a social chasm and revolution in which bloodshed will be general and that all business is going to pot.

Any kind of a problem can be solved if people will take hold of it and work persistently and not be daunted by obstacles. In the case of the war last year, millions of people who could not see how the end was to be accomplished, kept on working and working and doing their best. And the end came far quicker than they thought.

So it will be in the present business and social difficulties that seem so formidable. The hostility of classes, the profiteering spirit, the cost of living, these seem great problems that threaten social disaster. But millions of very bright and active minds are working on them.

"Problems" are caused by civic neglect. "If people always considered civic welfare and community interest, there would be no problems, no profiteers, no high cost of living, no selfishness of wealth, no social hostility, and no labor shirking. But they permit these conditions to grow through their own neglect and selfishness, and then become distressed at the results. They can remedy them as soon as they realize that they have to do so, and that it will pay everyone to make the necessary sacrifices. The American spirit was never daunted by any difficulty, and it won't be this time.

MEXICAN INEFFICIENCY.

(Atlantic Constitution)
There is probably no doubt in the mind of the average American about the inefficiency of the Mexican government. It has been repeatedly illustrated in the published instances of Mexican inability to suppress rebellion or to protect life and property.

If anyone were still in doubt as to whether Mexico is entitled to further consideration and leniency upon this point, the report from El Paso, Tex., that persons desiring to travel in Chihuahua and Durango, two leading Mexican states must sign affidavits relieving the Mexican government from responsibility, before passports will be issued to them, will tend to convince.

"All hope abandon ye who enter here," was written by Dante above the gate to the infernal regions, and Mexico in this attitude, has just about adopted it as a motto.

In the requirement that a man shall, in effect, sign away his rights to reasonable protection, which is, under certain circumstances, practically signing away his life, the very semblance of government appears to have been cast aside. There is certainly, at least, the admission that the country is overrun with murderers, bandits and robbers, or, worse still, that the aforesaid lawless lands are really the government itself.

In this state of affairs what can American representations and American notes, addressed to alleged government, accomplish? Carranza tells us on minute that if we will keep out of his country he will protect American lives and property; and, the very next, admits it is impossible because the bandits are stronger than the government.

It begins to look as if we were playing the diplomatic game at the wrong end. We might get along faster and accomplish more by dealing direct with the bandits.

Assuredly it is evident we can get nowhere by keeping up the play with the Carranza regime. There may be some question as to how far American interests in Mexico will justify us in going, but to that extent we must evidently be prepared to take care of the situation without hope of either assistance or cooperation from the present incapable authorities.

Spirit of the Press

Divorce in Sight.
Well, the anti-tobacco reformers are beginning to show increased activity, pointing out now that if you use the fifty weed from the time you are 14 years of age to the time you are 70 it is almost certain to shorten your life. But we sometimes feel that the smallness we drop on the floor, even more than the great take into our system, are what are shortening our life, at least our married life.—Bob Ryder in Ohio State Journal.

Germany Got Off Easy.
If the great war cost the world \$200,000,000,000, and Germany is obliged to pay its own costs and \$25,000,000,000, or perhaps a little more, of the cost of the Allies, it will have reason to congratulate itself heartily over its good luck. In view of the fact that the Allies tried to avert the war, and Germany would not lift its little finger to restrain Austria from attacking Serbia, and attacked the war as an excuse for savage attacks upon France and Belgium, Germany could hardly expect to get off cheaper.—Philadelphia Record.

After spending a while in the United States the Prince of Wales won't have to visit the Sahara to see what a real desert looks like.—Charlotte Observer.

GUILTY NEW YORK.

(Louisville Journal)

Let the accusing finger point at New York city when one searches out an influence forcing skyward the cost of things.

The nation's metropolis is a spend-thrift. It is this despite itself. From farm and fireside, from hut and mansion, from Nebraska and from Maine papa and the children, Lothario and Spinette live their lives in New York. To have what is tersely described as a time. This tiny monosyllable denotes practically everything in the dictionary except its own self. It spells lodgings, luxuries, clothes, amusements, theatres, money is scattered right and left. A person who would complain at home over a price of \$5 for an article pays \$10 with an eagerness which suggests that that is less than he would have thrown to cab drivers as though it were dug out of the air. Tradesmen and restaurateurs, observing the enjoyment which the millions of visitors derive from soundings money, accommodate them by quickly responding with still higher figures. The prices, therefore, go up for home folks right in New York as well as for the rest of the country temporarily spendthrifting there.

And then? Well, then the effect of New York prices permeates the land. The big city has its influence ramifying and radiating in all directions. It plunks down into the bowels of Sandy Point and Keokuk, Eng Village and Hell's Corner. An advance in the price of soda water on Fifth avenue, lifted the price of the prodigious drink for visitors, elevates the cost to Johnny who takes his best girl to the corner emporium in far away Dunk Center.

Any movement to better down cost should start with New York. Charity may begin at home, but extravagance begins up there. If Oklahoma and Ohio do not want New York to set the standard of high costs for them, they should be at the job of setting some standards within New York. They should regard the metropolis as a place where people live, not merely as a place where people spend money. New York makes its living out of the remainder of the state. It would not exist but for the railroads, the mines, the banks, the farms and the mills which lie to the north, west and south of this. Millions are there weekly to get rid easily of money which was hard to get.

New York is the pampered child of America. It is the frolic ground of extravagance. If it spoils the rest of the country, it is doing its best to spoil the rest of the country.

THE GERMAN INDEMNITY.

(Columbus Dispatch)

The peace treaty speaks of it as "reparation," and not use the word "indemnity," but regardless of the language of the treaty, we find several countries now wrangling among themselves concerning the proportion of the money they are to receive from Germany—and "indemnity" is what they call it.

Thus Canada, whose share has not been definitely fixed, claims she should have more than Austria, whose share is said to be sixty million pounds. New Zealand hopes to get ten million pounds, but thinks that is not enough if Canada and Australia are to have the former amount. A Canadian newspaper, in discussing the matter says that it is to be hoped that nobody will sit down and wait for the indemnity to be paid. "Some men," the paper says, "it is hoped will be less for rich relatives to die, believing they will share in the wealth that the dead can not take away with them. They would be better off physically, and materially if they worked in the meantime. It is an apt way of putting it, and displays much wisdom. Germany must be made to pay—and will be made to pay—whether it is called indemnity or reparation. But our guess is that there will be so much wrangling over a division of the money that nobody will be the better off when the amount is received.

ACCEPTING A CHALLENGE.

(Collier's Weekly)

"Go," said a Mr. Richard, speaking in the Canadian House of Commons—"go to the great republic to the south, the great home of democracy. The exponents of democracy live in that nation, and what do we see? There the great measure of success is not a peerage. It is not a titular distinction; it is the bank account of the individual and the size of the check he can subscribe."

If only they would go! Would they find Mr. Rockefeller held in higher esteem than, say, Charles W. Eliot? Was it the size of their checks that won the place for Theodore Roosevelt, or Grover Cleveland? And did this country go to war for trade, territory, or spheres of influence? We used to expect the taunt of dollar-chasing from Europe. We suffered from it when over seas, and the general impression was that every American was inevitably a millionaire. We have our money-grubbers, but we spend magnificently. We care less for money than those who earn little and hoard. And at all events we had thought that a Canadian would know us better.

If the "general strike" makes its appearance it will find general opposition confronting it.—Boston Transcript.

Utterly Lacking in Excellence.

If Mr. Bank can ever round up the man who turned a potato after him we think he would be justified in suing him for defamation of character.

Settling Down.

One thing that rather inclines us against taking up aviation as a life work is Mr. Roland Roloffs' testimony that at a height of 31,000 feet his machine turned over on its ear and kept going from side to side with an oscillating movement.—Ohio State Journal.

Nothing betrays advanced age more definitely than a growing preference for the calmer pleasures of life as against its stimulating adventures.

Did You Know

That Natal derives its name from having been discovered by the Portuguese on Christmas Day, 1497? It has an area of about 18,750 square miles, and its northern boundary is the Tugela River which separates it from Zululand. A lofty and rugged range of mountains divides it from the Free State. About latitude 28° these mountains reach their culminating point and probably attain a height of 10,000 feet.

NO DODGE CARS SOLD BY GOVT. AT BARGAIN

That story which gained circulation here a few months ago to the effect that the government would sell a large number of Dodge cars at \$300 each in lots of a dozen or more, has been nailed in a bulletin just issued by the war department.

It was the result of a clever swindle perpetrated by a man who posed as an army officer, who took orders for the cars, accepting deposits on the order, until his operations were cut short by his arrest.

The same bulletin announces the sale of 76 motor vehicles at Camp Holabird, Baltimore, for \$12,000. All these were trucks or touring cars, which were unserviceable form army standards. Similar sales will be conducted at other camps of vehicles including trucks, touring cars, motorcycles, ambulances, bicycles, etc. The only sale in Ohio is at McCook Field, Dayton, where one touring car is offered.

The war department has turned over to other government departments a large number of cars and trucks of different types. Of these the bureau of public roads got 12,875 and the post office department 4,720.

Miss Laura Bane received a letter recently from Mrs. Carl Snider, formerly Miss Evelyn Lewis, who was born and reared in Newark but who now resides in Los Angeles, Cal., in which she speaks of Mrs. Mason, daughter of Hugh M. Wallace, and has this to say of her:

"Mrs. Mason, who used to be little Mammie Wallace, Hugh Wallace's daughter, was over in Highland Park not long ago at a meeting of the King's Daughters Circle, to which Evelyn belongs. Mrs. Mason is one of the state officers of King's Daughters—is a very attractive, fine looking lady. Her husband is a prominent musician of Pasadena."

Alkali in Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Multisifted coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Multisifted coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

SOCIAL AFFAIRS

Mr. and Mrs. D. A. Benner entertained with a family dinner on Friday in honor of their father, David H. Benner's ninetieth birthday anniversary. Mr. Benner was born and has lived all his life on the farm on which he still resides. Mr. Benner is still very active in both mind and body above the average for one of his age. He still takes keen interest in all the operations of his farm, and also takes a deep interest in all current events of the world.

A pleasing coincidence of the day was the fact that two of the guests also celebrated their birthday anniversaries on the same day. Mrs. George Tavenner, a sister-in-law of Grandpa Benner, who was 62 on that day, and James E. Benner, a nephew, who was 53 years of age on the same date.

Those present were: Mrs. J. L. Benner and sons Gary, Theodore, Frederick and daughters Martha and Mrs. George Davenport of near Lancaster; Mr. and Mrs. George Benner, Mr. and Mrs. Ray Wright and sons James and Harold and daughters Mary Frances and Martha Grace; Mr. and Mrs. Luther Benner and son Paul, Miss Esther and Master David Martin, Mr. and Mrs. James E. Benner and daughter Ream, Mrs. David Tavenner and sons Rollin and William, Mr. and Mrs. George Tavenner, Mr. and Mrs. Burton Tavenner, Mrs. Jennie Foster, Miss Adah Boyer and Mrs. J. C. Lee, all of Newark and vicinity.

Mrs. L. R. Maloney of No. 5 Russell avenue was surprised on Sunday in honor of her birthday anniversary. Dinner was served to the following guests: Mrs. Mary Seaman, Mr. and Mrs. John Schumacher and son Dalton, Mr. Clarence Schumacher, Mrs. Sadie Martin and daughter Mary, Mr. Ollie Martin, Mr. and Mrs. Auburn Hass, Mr. and Mrs. B. S. Maloney and sons Bruce and William, Mr. and Mrs. L. R. Maloney and children John William and Mary Elizabeth. The out of town guests were Mr. and Mrs. J. R. Boswell of Erie, Pa.

Mr. and Mrs. J. A. Mack entertained at dinner Sunday the following guests: Mr. and Mrs. George Orr, Mr. and Mrs. Austin Cooperider, Mr. and Mrs. Ernest Cooperider, Mr. and Mrs. Nathan Mack, Mr. and Mrs. Jesse Orr, Carl Cooperider, Edna Huble, Mildred Orr, Gladys Orr, Helen Cooperider, Kenneth Mack, and Vernon Mack.

A meeting of the City Federation of Women's clubs will be held Thursday afternoon at 3 o'clock at Taylor Hall. The meeting is called to discuss plans for the coming state meeting to be held in Cleveland.

The Bowser-Alspach Sunday school class will hold its monthly meeting at the home of Mrs. Charles Khuns, 124 Ninth street, Thursday afternoon at 2 o'clock.

The Missionary society of Plymouth church will meet at 8 p.m. at the home of Mr. Vernon Road, Thursday at 2:30. It is the Thanksgiving meeting and the Missionary boxes will be returned.

The hostesses at the meeting of the Helock Chapter, Daughters of the American Revolution on Friday afternoon at the home of Mrs. Henry Woodbridge, will be Mrs. Woodbridge, Mrs. C. W. Miller, Mrs. William Prout, Mrs. Fred Wilson, Mrs. Mary Miller, Mrs. George Orr and Miss Emma Lutz. They will give an account of the meetings of the D. A. R. at Chautauqua, N. Y., during the summer months.

Wright-Anderson.
Willis Wright and Rose Anderson were married last Saturday at New Cumberland, W. Va., where Miss Anderson had been the guest of relatives for the past month. The groom has been employed at Akron in one of the large rubber factories and the bride is daughter of Mr. and Mrs. Joshua S. Anderson of North Williams street. Both were former students of the Newark High school. They will make their home in this city.

Ellis-Gardner.
The marriage of Miss Hollie G. Gardner of Frazesburg and Mr. Robert O. Ellis of Huntington, W. Va., was solemnized at the First Baptist church at noon today. Rev. C. H. Still, pastor of the church, read the wedding service. Mr. and Mrs. Ellis will be at home in Huntington, W. Va. The bride is well known in Newark having resided here for some time.

Held-Sherman.
Rev. C. H. Still, pastor of the First Baptist church officiated at the marriage of Miss Helen J. Sherman of Johnstown and Mr. Luke Heller of Thornville, Wednesday morning at 11 o'clock. The service took place in the First Baptist church.

Smith-Walcott.
The marriage of Miss Nettie Carrie Walcott and Mr. William Wesley Smith, both of Toledo, took place Saturday afternoon at the parsonage of the First Presbyterian church. The service was read by the pastor, Rev. C. G. Hazlett. Mr. Smith is a horticulturist located on the Everett farm, east of the city.

The Library Association will meet Friday afternoon at 2 o'clock in the children's room at the library. This is the first meeting of the library year and the secretary has requested a large attendance.

Mrs. Rube Benton.

Little Dan Cupid was busy among the players on the Cincinnati team even in the days when the Reds seemed to be a hopeless aggregation of players and the pennant seemed farther away than the millennium. This was proved when Rube Benton recently married Miss Elsie McNutt. The courtship began four years ago when Rube was trying to hurl the Reds out of last place.

OBITUARY

20,000 OF 4 MILLION SOLDIERS ARE AT WORK

Washington, Sept. 24.—Of the four million men in the military service at the close of hostilities for whom it was necessary to find civil employment, there remains now only 20,000 to 30,000 according to the best figures available by the government. This number represents no more than the normal labor turnover, it is stated. Available figures indicate approximately eighty per cent of the discharged men were taken back by former employers.

Milady's Boudoir

The Keynote of Nature.
The keynote of nature in women is simplicity, of being able to come into close communion with nature. After you have become familiar with the social customs and conventionalities demanded, it is an easy matter to grow naturally into the way you should appear and act.

Cultivate old-fashioned courtesy at all times. Do not keep on hand a supply of "company manners" to be used only when strangers are within your gates. Be kind, considerate, thoughtful and polite to the immediate members of your family. If you are tactless, train yourself to think before acting and soon you will find that you are doing just naturally the right thing.

Try to be sincere and frank in your opinions, always remembering that the well bred woman will never intentionally wound the feelings of a friend or guest. Display hospitality freely, but never try to create the impression that you entertain lavishly. Simple, old-time hospitality is the best and it is your duty to make all guests feel at home in your house.

There is nothing more annoying to the really worth while friend than an affected woman, so the minute you find yourself acquiring an affected manner of speaking, dressing or acting, set about to rectify the habit.

Do not think that people will think the less of you if you preserve the simplicity and naturalness of your school days. On the contrary they will admire you for these qualities, which few women retain when they reach maturity. Just be yourself, simple, natural and refined.

Famo Kills Seborrhea

It Stops the Dandruff Disease and Grows New Hair

Science knows now that Seborrhea causes falling hair and finally, baldness.

Seborrhea is the bacillus of dandruff.

Famo actually kills this germ that kills the hair.

The formula of Famo came from one of Detroit's largest laboratories, after two years of constant research. It worked scores of authenticated cures of Seborrhea, before it was even given a name.

If you have dandruff, you have Seborrhea.

Famo eradicates the dandruff. It penetrates the glands of the scalp that feed the hair.

It grows hair by making and keeping the scalp and hair healthy.

Seborrhea is a disease as deadly to hair as is Pyorrhea to the teeth.

And unless you use Famo to kill the Seborrhea germ, your hair is making a losing fight.

Everything about Famo is better. Everything in it is helpful to the hair—helpful toward a healthy scalp, toward the growth of beautifully glossy, luxuriant hair.

Famo contains not a trace of alcohol, which dries out the natural oil of the hair.

Famo actually postpones the coming of gray hair by keeping the scalp healthy.

Thousands of hair shops testify to the extent of the scourge of Seborrhea.

This appalling scourge can be stopped tomorrow by Famo.

Try a bottle today. The first treatment will remove the dandruff.

And you will be amazed at the improvement in your hair after a few applications.

Famo is economical. The dollar size contains a third more than the average.

Begin to use it regularly this very night—continue to use it daily.

Get Famo at any toilet goods counter. In \$1 and 35 cent sizes. Applications at the better barber shops.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhea excretion forms in scales or flakes and is commonly known as dandruff.

Potatoes: unchanged.

Wall Street.
New York, Sept. 24.—Leading shares were in demand at the opening of today's stock market, yesterday's late rally being carried to greater lengths. United States steel rose only the smaller fraction in the market, but soon made substantial response to heavy buying. Crucible was the feature of this group, however, rising almost 5 points in the first few transactions. Oils advanced to 3 points and Baldwin Locomotive again featured the equipment. Tobacco was held only active shares to react, but other specialties strengthened, notably some of the motor subsidiaries, in which gains came from 2 to 40 points.
Rails shared in the spirited advance of the first hour. Grangers, Coalters and cotton carriers gaining 1 to 2 points. Shippings also strengthened and United States Steel rose almost a point with supplementary gains in affiliated issues before the heaviness of tobacco and marked weakness of American Smelting effected a general reaction. In several noteworthy instances, such as equipment, tobacco, reversals ranged from 2 to almost 4 points. The market became unsettled later, but rallied briskly at noon on renewed business of steels, equipments and four shares.

Chicago Produce.
Chicago, Sept. 24.—Butter, higher: creamery 48c@55c.
Eggs, higher: receipts 7949 cases; firsts 48 1-2@49 1-2; ordinary firsts 41 1-2@42 1-2; at market cases include 42@49; storage packed first 30@50 1-2.
Poultry alive lower; springs 23 1-2; fowls 20@25.

Chicago Grain Review.
Chicago, Sept. 24.—Persistent buying on the part of commission houses and shorts brought about a material advance today in the value of corn. Opening prices which varied from unchanged figures to 1 cent higher, with Dec. 1.25 1-2 to 1.25 7-8 and May 1.25 1-2 to 1.26 1-2 were followed by gains all around.
Oats reflected the strength of corn. After opening 1 cent off to a half cent up, with Dec. 70 3-4 to 70 7-8, the market sagged a little and then scored a general advance.
Provisions were dull but firmer.

Successful.

A young Welshman applied to the head of a big firm in London for a job. "Where do you come from?" he was asked. From Llannpuysaint. "What may that name mean?" "It means the place of the five saints," was the ready answer. "Are there five saints there still?" "There are only four since I left," said the young Welshman. As the head of the firm came from the same neighborhood the young man got the situation.

Korean Religion.

Nowhere is the great antiquity of Korean civilization so clearly shown as in the minds of their religious beliefs. The all-around Korean, when in society, is a Confucianist; he is a Buddhist when he philosophizes, and a spirit worshiper when he is in trouble. His religion is one of dragons, devils, elves, lumps and goblins, in which the spirits of dead humanity are here and there present; where eternal shades walk about; in which hills, trees and rivers—even diseases—have personalities bearing woes and terrors to all men.

Distinguished by Wig.

Thus James Stewart in his Inimitable "Pleasantness, or the Whole Art of Hairdressing," first published in London in 1782, tells how the wig gradually came to "declare the man." He speaks of "the huge tie peruke of the man of law," of the "long bob or natty scratch" of the tradesman and the "hunting peruke of the country gentleman" while "the merchant men of business and of letters were distinguished by the grave, full bottom, or more moderate tie neatly curled."

Nicaraguan Burial Custom.

Among the Indians of eastern Nicaragua when a person dies the body is buried at once and a little house is built over the grave in which the soul can live for the time being. A field of sweet manioc is planted. In about eight months' time the roots are ready for use, so a general invitation to a great Sau or Sixero dance is sent out. A cotton string is stretched over the tree tops from the spirit house over the grave to the dancing place, where the end of it hangs down into a great bowl of mishla.

Banks and Banking.

The national banking law was passed in the United States February 20, 1863. The first bank authorized to do business was the First National bank of Philadelphia, but the oldest one was the Bank of North America, which was chartered by the state of Pennsylvania in 1782, and became a national bank December 3, 1864. In view of its long history and pioneer services to the government, it was permitted to organize as a national bank under its old name of "Bank of North America," without the usual prefix of "national."

Cause of Improvement.

A dispensary official had returned from a month's holiday, and called to see an Irish patient "who was generally as crass as two sticks." After a few preliminary remarks the patient congratulated the doctor on his improved appearance. "Faith, doctor, the holiday has done yez good—yez as brown as a berry an' as light or fut as a rag man!" "I can return the compliment, Mick; you seem to be greatly improved," said the doctor. "Och, sorr," replied Mick, "O'ive mendid tvery hour since the minit yez went away!"

AMUSEMENTS

AUDITORIUM.

Neil O'Brien's Minstrels.
With a complete equipment of new scenery, all new wardrobe, almost an entirely new company and with all new features the Neil O'Brien Minstrels will be the attraction at the Auditorium this evening. This is the eighth year of this organization and its appearance is looked forward to with pleasure and confidence by sceptical theatre goers. The list of comedians is an imposing one, including the reappearance on the minstrel stage of Bert Swor, one of the cleverest end men and monologists that minstrelsy has ever boasted. Then there is Davis "Sugarfoot" Gaffney with his nimble feet and mirth compelling jests. Ollie Dehrow, grotesque and absurd, but always funny. Bobby Gossans, Major Nowak, Miller

prices originally set for Uncle Tom, same being 17 and 23 cents. Those coming to see the pictures can stay and see Uncle Tom's Cabin, thus getting a double show for one price of admission.

Sousa's Band.

In discussing the abandonment of his music rithme other day Lieut. Sousa said: "At the Great Lakes station where I was assigned to duty when the war broke out there were 20,000 men and only two sets of whisks. Commander Grimes and myself owned these sets. The more I associated with the youth and maturity of the day represented at Great Lakes, the more I began to feel I was in the wrong or that my chin was in the wrong. You know the War of Independence was fought by

and Strong, H. F. Quinn, Louis Tracy and a score of others. The first part scene this year, as a color scheme is something entirely new to minstrel settings. The lighting effects and costumes carry out the same general idea.

Most Thrilling Fishing in the World.
Catching the "bucking broncho of the seas," otherwise the tarpon, has been described by expert fishermen to be the greatest sport in the world. "The silver king," as the tarpon is also called, is the gamest of all fish.

Mr. Lyman H. Howe's cameramen spent several weeks off the Florida coast catching some thrilling pictures of tarpon fishing. The result is a remarkable series showing, among other things, how a young woman, weighing exactly 198 pounds, lands a tarpon weighing 185 pounds.

To make her capture the woman used an exceedingly strong bamboo pole, a 21-strand line, a Pfeuffer reel and a gold spoon lure.

Howe's Pictures come to the Auditorium tomorrow afternoon and evening and so that many school children who want to see the performance tomorrow afternoon, the screenings will not start until 3:15 or a few moments past that time. This will give the kids and all who cannot attend the evening performance, a chance to see this wonderful program. A special price will be given to the school children, same to be arranged when the company manager arrives Thursday morning.

"Uncle Tom's Cabin."
At the Auditorium Saturday the beautiful and realistic picture which has made William H. Kibbles' production of "Uncle Tom's Cabin" world famous, the little cabin of Uncle Tom, an old Southern Road, Skinner's Tavern, the ice-gorged Ohio River by moon light, the grand old home of Phineas Friend, the wild rocky pass in southern Ohio, St. Claire's home, showing tropical garden with its fragrant magnolia and orange trees, among which nestles the typical southern plantation residence, the home of Eva; corridor at St. Claire's, the great New Orleans levee and slave mart, a moss-covered road near Legree's, a street in New Orleans, Legree's plantation on the Red River with the cotton in full bloom, and the transformation entitled "The Celestial City."

"Uncle Tom's Cabin" will play Newark Saturday but owing to close railroad connections, the matinee will be a little late in starting, therefore Mgr. Fenberg will offer a picture program from 1 p. m. until 2:30, charging the

smooth faced men, the Civil War by whiskered men, and this present war by smooth shaven men. The thing moves in cycles, and not desiring to stand with the minority, I decided on the trim.

Sousa and his band comes to Newark next Sunday.

"We Can't Have Everything."
Another unfortunate scandal in high life has come to light with the announcement that Peter Cheever and his wife, Charity Coe Cheever, were divorced yesterday. Mrs. Cheever named as correspondent, Sarah Tishler, who

GERALDINE FARRAR in THE STRONGER VOW Goldwyn Pictures

waived her right to appear in her own defense. It is rumored that Miss Tishler is a dancer, but no facts regarding the case could be obtained from any one concerned in the affair. As a matter of fact, the whole thing is just a motion picture story. "We Can't Have Everything," by Rupert Hughes. It is to be shown at the Auditorium Friday and is a return engagement.

has presented these two clever comedians, you will be even more pleased with their latest photoplay entitled "Love Is Love"—so runs the promise.

These bright young co-stars who have won so many admirers in this city by their merry-making comedies, will appear at the Alhambra theatre today in this picture which is strikingly new and different, according to advance reports, yet gives ample scope for the agile ability of young Ray and the emotional powers of pretty, dark-eyed Elinor Fair—both of whom have indicated in the past that they are able to handle in convincing manner the engaging story presented in "Love Is Love." This feature also Vod-A-Vil is seen today and tomorrow.

"The Stronger Vow."
Once again Geraldine Farrar acquires herself magnificently in a Goldwyn Picture. Her fourth Goldwyn appearance is made in "The Stronger Vow," which comes to the Alhambra theatre, beginning Friday.

Geraldine Farrar is Dolores de Corjo, one of the last of a Spanish family that is at war with the house of Estudillo. She is seen among the gay revelers at an Easter carnival in Lerdia chatting with a handsome stranger, to the annoyance of Pedro Toral, who seeks her hand in marriage. Enraged by the smiles she bestows upon the stranger, Toral orders her brother, Jose, to take her away. Jose resents the other's interference and the pair come to blows. That night Jose is stabbed to death and Toral is the first to find the body.

Suspecting that the stranger is an Estudillo, Toral schemes to have him accused of the murder.

LYRIC.
Billy Malon's musical comedy performers are continuing to please patrons at the Lyric. The crowds are increasing in size indicating that the hustling performers have caught on. The bill changes tonight, when "A Trip to Paris" will be presented.

GEM.
Love in a Japanese garden, amid the able, is depicted in the new World Picture, "The Unwritten Code," which is scheduled for showing on Friday at the Gem, with Shirley Mason, the famous film and stage favorite, as the star, and with Matt Moore playing the role of the leading man.

ORDINANCE NO. 3042.
By MR. BAKER.
Determining to proceed with the improvement of Western Avenue from Eighth Street to Eleventh Street by widening and paving the roadway thereon.

Be it ordained by the Council of the City of Newark, State of Ohio—three-fourths of all the members elected thereto concurring—
Section 1. That it is hereby determined to proceed with the improvement of Western Avenue from Eighth Street to Eleventh Street by widening and paving the roadway thereon in accordance with Resolution passed on the 4th day of August, 1918, in accordance with the plans, specifications, estimates and profiles hereto approved and now on file in the office of the Director of Public Service.

Section 2. That all claims for damages resulting therefrom shall be judicially inquired into after the conclusion of the proposed improvement.

Section 3. That the whole cost of said improvement, less one-fiftieth thereof, and the cost of intersections, shall be assessed by the foot frontage upon the following described lots and lands, to-wit: All lots and lands bounding and abutting upon the proposed improvement, which said lots and lands are hereby determined to be specially benefited by such improvement and the cost of said improvement shall include the cost of printing and publishing the notices, resolutions and ordinances required, and the service of said notices, the cost of construction, together with the interests on bonds issued in anticipation of the collection of deferred payments, and all other necessary expenses, and that the assessment so levied shall be paid in twenty (20) semi-annual installments with interest on the deferred payments at a rate not to exceed six (6) per cent per annum, provided that the owner of any property assessed may at his option pay such assessment in cash within thirty days from and after the passage of the assessing ordinance, to the City Treasurer, in which case the said assessment shall not include any item of interest upon bonds to be issued in anticipation of deferred installments, of such assessment and that the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of the assessment by installments and in an amount equal thereto, and that the remainder of the entire cost of said improvement not specially assessed, including the cost of intersections and the damage awarded to any owner of adjoining property and interests therein, and the cost and expense of such award, shall be paid by the issuance of bonds in the manner provided by law.

Section 4. That the following lots and lands shall be assessed for said improvement as above determined. All lots and lands bounding and abutting upon the proposed improvement on Western Avenue between Eighth Street and Eleventh Street.

Section 5. That the Director of Public Service be and is hereby authorized and directed to make and execute a contract for said improvement with the lowest and best bidder after advertisement according to law.

Section 6. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
Passed September 15, 1919.

R. L. WILLIAMS,
President of Council.
Attest: GEO. H. HAMILTON,
Clerk of Council.
Approved by the Mayor this 15th day of September, 1919.

LEGAL NOTICE.

Carrie Campion, Benjamin F. Wells, Ella Robey and Alice Divan, whose places of residence are unknown, will take notice that on the 26th day of August, 1919, Samuel J. Johnston filed his certain amendment and supplement to his answer and cross-petition heretofore filed in the case of Olive M. Cahill vs. Samuel J. Johnston, et al., being case No. 18794, pending in the Court of Common Pleas of Licking County, Ohio, making the above-named Carrie Campion, Benjamin F. Wells, Ella Robey, Alice Divan and Joe Albert parties defendant in the above-entitled action.

That by the pleadings filed by the said Samuel J. Johnston in said case it is alleged that he is the owner in fee simple of the following described real estate:

Situated in the county of Licking, state of Ohio, and in the city of Newark, and bounded and described as follows:
Beginning at a point at the west line of Day Avenue, said point of beginning being one hundred fifty-six and eight-tenths (156.8) feet south of the southeast corner of lot number fifty-two hundred forty-nine (5249) in Cassingham and Stump's addition to the city of Newark; thence west from said point of beginning on a line at right angles to Day Avenue one hundred forty-five (145) feet to a stake on the east line of a proposed alley; thence south along the east line of said proposed alley forty-one and thirty-one one hundredths (41.31) feet to a stake; thence east from said stake on a line at right angles to Day Avenue one hundred and thirty (130) feet to the west line of Day Avenue; thence north along the line of Day Avenue forty-one and thirty-one one hundredths (41.31) feet to the place of beginning.

That the said plaintiff, Olive M. Cahill, who intermarried with one, Joe Albert, died intestate leaving no children and leaving as her sole heirs at law, her husband, Joe Albert, and the said Carrie Campion, Benjamin F. Wells, Ella Robey and Alice Divan, and that the above-named Joe Albert, Carrie Campion, Benjamin F. Wells, Ella Robey and Alice Divan have in fact no right, title or interest in said real estate, and that their claim is a cloud upon the title of the said defendants in and to said real estate, and that the above-named persons, Joe Albert, Carrie Campion, Benjamin F. Wells, Ella Robey and Alice Divan are barred by the judgment of the Court of Appeals of Licking County, O., in the case of Albert G. Welsh vs. Benjamin F. Wells, et al., being case No. 1397, Court of Appeals of Licking County, O., and of the finding of the court in case No. 17675, Common Pleas Court, Licking County, O., from claiming any right, title or interest in said real estate, and that the said defendants in and to said real estate, and that the above-named persons, Joe Albert, Carrie Campion, Benjamin F. BUILDING MATERIALS BUY THEM AT HOME SAVE MIDDLEMAN'S PROFITS

Ten years ago the quality, price and service on building materials depended largely upon density of population. In other words, the builder of a home in a large city could buy a better article at a lower price than a buyer in the smaller town, who was at the mercy of three or four middlemen, misrepresentation in catalogues and the dissatisfaction of buying through correspondence. This is no longer the case, because the best manufacturers of building materials have recognized that the buyers in the less densely populated communities have been discriminated against and as a consequence have looked to local connections in the smaller towns for the distribution of their products. This has enabled the local distributor to carry large stocks of high quality products and has made it possible for him, also, to give quick delivery, and has also, given the buyer of building materials the opportunity to inspect in person just what he is getting.

The man building a home, barn or any other kind of a building can immediately go to the local distributor and explain what his requirements are and furthermore be assured that he is paying a one profit price only.

This remarkable development can be no better illustrated than by the example of the R. B. White Lumber Company of Newark, Ohio. The connection that these people have made with the Johns-Manville Company of New York, the largest makers and distributors of asbestos building materials, in the country, offers the highest possible development in the way of quality and service to its customers. At the present time there is a general agitation all over the country in an endeavor to make building construction more safe from fire and asbestos materials have been given the highest recommendation for fire prevention. As a consequence, they have been awarded the lowest base rate of insurance. Stocks of the Johns-Manville Roofing Products are carried by the R. B. White Lumber Company, and the buyer in addition is assured the recommendation of the Construction and Engineering Departments of this big company.

The R. B. White Lumber Company opened up their local yard about 22 years ago. Since then they have acquired five yards in the State of Ohio, each being conducted under the general supervision of Mr. R. B. White and along the same modern business policies as the one in Newark. This company uses the slogan, "Famous for Service" and back this up by one of the largest stocks carried in any part of the country on cement, lumber, roofing materials, etc. They have built up an enviable reputation for fair dealing and service and the prospective buyer is assured of the most courteous attention and advice at all times by this company. 9-24-19

CHICAGO SELLS ALL SEATS FOR SERIES

Chicago, Sept. 24.—With the opening date for the world series set and all seats for three games at the Chicago American League park sold, the White Sox today were out today to take the single game needed from St. Louis to validate the arrangements. Eddie Cicotte, White Sox pitching star, has been specially selected to lead the victory today and thus clinch the pennant. Of their five remaining games, Chicago needs but a single game.

GARY'S STAND COMMENDED.

Columbus, Sept. 24.—Approval of the stand taken by Judge Elbert H. Gary of the United States Steel Corporation against unionization of the mills has been expressed in a telegram sent to Judge Gary by the Ohio Manufacturers' Association. A message of thanks was also sent to Governor Coolidge of Massachusetts on his stand on the Boston police strike.

EARLY AUTUMN DAYS SUGGEST NEW DRESSES FOR FALL AND WINTER

JUST at this time there are many handsome models for evening wear—models for afternoon affairs and the smart simple types suitable for street and practical wear. Fall dress fashions are particularly attractive—so much newness in material—line—cut and trimmings.

Dresses of Tricotee—Paulette—fine Tricotine—beautifully tailored—many show trimmings of jet—braided designs or heavy embroidered patterns in colors. Then the ever popular serge dress is shown in unusually handsome models this season.

While for afternoon wear are beautiful models in satin—fine crepes, taffeta, either alone or combined with georgette crepe, that for all their firmness give an astonishing amount of wear. For dancing and evening wear are unusually dainty creations in all the delicate shades of mauve—pale blue—pink—rose and pink as well as very handsome models in black.

NEW GEORGETTE WAISTS STYLES MORE ATTRACTIVE THAN USUAL

THE present vogue for the separate skirt or for wear with your suit, calls for a handsome waist. There are beautiful models with beaded designs down the front, designed in various colors—others embroidered designs in heavy embroidery thread—while others show satin trimmings. In addition to delicate tints of pink and white are pretty models in navy and taupe.

YOU'LL FIND IT MOST INTERESTING to look through the line of new dresses and waists. May we show them to you soon?

MR. SUTLEY WAS AT BIG DELCO LIGHT MEETING

Attended a Banquet Given by the
Losing District to the One
Making the Largest Gain.

Mr. S. E. Sutley, the local Delco-Light dealer has returned from Dayton where he spent Friday and Saturday of last week in the Delco-Light sales convention. All business sessions of the convention were held at Triangle park, a recreational park maintained at Dayton by the Domestic Engineering Co., makers of Delco-Light, and one or two other Dayton concerns.

Several unusual features lent a great amount of interest to the convention. In the first place, a great many of the Delco-Light representatives who went to Dayton were accompanied by their wives. The ladies took a keen interest in all of the affairs in the convention, being present at most of the business sessions taking place at Triangle park. In addition a special program of entertainment was arranged for them. On Friday night they were entertained at a dinner and theatre party. The dinner was served at the Hotel Miami.

On last Friday night there was a banquet at the Dayton Engineers' club at which the Delco-Light representatives of the Cleveland district were the guests of J. J. Munsell, distributor for Columbus district. This banquet was the outcome of the wager made some time ago between the two districts on the amount of business to be done during the month of July. The Cleveland district won the wager by securing 476 per cent of their quota for the month as compared with 442 per cent secured by the Columbus men. The closeness of the contest and the spirit of intense competition displayed throughout made the banquet to the winners a very interesting affair. Following the speeches prizes were given to members of the Cleveland district for excellent individual work done during the campaign. These prizes included a Delco-Light plant, Delco-Light pump, Delco-Light powerstand, a silver loving cup, an electric purculator. So great has been the interest in the July contest that it was decided to have another contest during the months of September, October and November. The leaders of the two districts each announced that they were confident of being the guests at the banquet which closed this new contest.

An instance of the fact that this Delco-Light convention was up to the minute in every respect is the fact that Mr. Grey and Mr. Munsell, the two Delco-Light distributors, made the trip to Dayton by airplane. On Thursday morning a plane from Dayton and flew to Cleveland where Mr. Grey was taken on as a passenger. A flight was then made from Cleveland to Columbus where Mr. Grey's plane was taken by Mr. Munsell. Mr. Munsell arrived in Dayton at 2 o'clock Thursday afternoon.

Mr. S. E. Sutley returns to Newark exceedingly enthusiastic over the prospects for Delco-Light business. He says that a visit to Dayton would convince anyone that farmers all over the country are thoroughly awake to the value of electric light and power for their farms, as it is supplied by the Delco-Light plant.

HAD TO QUIT HIS JOB ON ACCOUNT DIZZY HEADACHES

Was Working on the New Science Building at Otterbein College, Westerville, O. Taken With Dizzy Spell and Laid Off.

HEARD ABOUT DRECO.
Got Bottle of New Herb Remedy and Returned to His Job Three Days Later and Been at Work Ever Since.

"I was working on the new building at Otterbein College, when I was taken with such a dizzy spell and headache that I had to quit and go to bed," is the signed statement of Mr. W. H. Browne of 59 Center St., Westerville, 12 miles from Columbus, O.

"For some days before this, I had been suffering from aching pains in my back, over my kidneys; my food did not agree with me, but seemed to sour in my stomach, bloated me up and caused much uneasiness. My bowels were constipated, so that I had to take physic almost daily.

"I read daily about Dreco and what people right here at home were saying about it, so secured a bottle to try it on my case. It went right to the bottom of my troubles, and I was clear of headaches and dizziness, so that I went back on the job, after losing only three days. I kept taking Dreco and now all the pains are gone from my back; my food digests without the gastritis, or bloating and every morning my bowels move free and easy without straining. Dreco is grand medicine and I am glad to add my words of praise to that of others."

The good, old-fashioned roots, herbs, barks and berries, like our forefathers brewed their teas from, and raised a hearty race of people are still recognized as the best remedies for the stomach, liver, kidneys, bowels and blood. Dreco is made from 12 herbal plants, and its action is prompt and pleasant for man, woman or child.

All good druggists now sell Dreco and it is highly recommended in Newark by Evans' Cut-Rate Drug Store.—Adv.

Nerv-Worth and Nerv-Worth Laxative
Tablets Do Wonderful Team
Work.

These two famous family medicines unite their forces with happy results for those whose nervous ills are connected with bowel and liver troubles. Nerv-Worth, the liquid, generally masters derangements of the liver and bowels, but in some cases these are too deeply rooted to surrender quickly and then the Tablets taken in connection with the liquid do wonderful work. They are especially valuable in cleansing the bowels for those whose habits of constipation do not readily yield to the laxative properties of Nerv-Worth, the liquid. A bottle of Nerv-Worth and a 25c box of the Tablets form a combination without equal in overcoming ills of the nerves, stomach, bowels and liver.

E. J. Evans sells Nerv-Worth in Newark. Your dollar back if this famous family tonic does not benefit you. Neighborhood Nerv-Worth drug stores: The Utica, Utica; Howard's, Johnstown; Ullman's, Granville.

WHEN TO GATHER ROOTS AND HERBS.

For medicinal purposes, roots and herbs should be gathered when their medicinal properties are at their best. For instance, roots of annual plants should be dug just before their flowering season, and roots of biennial or perennial plants after the tops have dried. All these things are taken into consideration in gathering the roots and herbs, many tons of which are used annually in preparing that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound.

Some Circulation!

YOU wouldn't believe it—no one does until he learns by actual experience—that the circulation of hot air produced by the "little furnace" in the Estate Hot Storm is as powerful as you find in the ordinary furnace.

But just try to hold your hand over the discharge ports of an Estate Hot Storm when it's fired up full, and you'll be quickly convinced.

Estate Hot Storm

—the heating stove with a
"little furnace" in it

works like a furnace because it's built like one. Air drawn into the "little furnace" through pipes on both sides of the stove, is heated to a very high temperature, and then discharged from the top of the stove, either into the room in which the stove sets, or into a pipe to conduct the heat to the upper floor.

This distinctive feature of the Estate Hot Storm's construction should be reason enough for you to give this stove the preference, but there are other reasons almost equally important. The Estate Patented Jointless Ash Box insures perfect fire control throughout the life of the stove; the Estate Tubular Hot Blast Attachment gets out of the fuel every atom of heat that's in it; the Estate Double Strength Single Fire Pot, Estate Patented Anti-Rocking Ring, etc., all contribute to make the Estate Hot Storm the strongest, longest-lived, most powerful and economical heater that has ever been built.

Make up your mind to "Own an Estate" this season and make it an Estate Hot Storm—the stove with a "little furnace" in it. We'll be glad to explain the construction to you at any time.
